No one pumps up your psychological search capability like PsycINFO!

PsyINFO's computerized databases and printed indexes are trusted psychological reference tools backed by 70 years of experience.

Unrivaled in their depth of psychological coverage, they are enriched with literature from an array of related disciplines such as education, medicine, nursing, law, management, and social work. These dynamic resources are continually updated to keep pace with the growth of newly published material in psychology and the social sciences.

PsycINFO offers a family of products, each tailored to specific research purposes and budgets:

The PsycINFO® Online Database contains journal references from 46 countries in over 30 languages and dissertations from U.S. literature, all from 1967–present. It's accessible through commercial online services or direct tape leasing from APA.

PsycLIT® contains references from 1974–present, including journals, book chapters, and book records. It offers user-friendly interface, unlimited searches, and is distributed through CD-PLUS, EBSCO, and SilverPlatter for a fixed annual subscription cost.

Psychoanalytic Abstracts® is a quarterly printed index featuring

abstracts of international journal articles and summaries of international English-language book chapters and books. Affordably priced for personal subscriptions.

PsycSCAN®s are compact, subject-oriented quarterly printed indexes that provide individual researchers with easy access to the latest developments in their special areas of interest. Inexpensive, yet comprehensive!

For more information on the PsycINFO family of products, call **1-800-374-2722**.

PSYCINFO
INFORMATION SERVICES IN PSYCHOLOGY

NEW, IMPROVED, AND
EXPANDED

Publication Manual

of the American Psychological Association,
Fourth Edition

With over 2 million copies of the third edition sold, the *Publication Manual* is the style manual most used by writers and students in psychology and other behavioral and social sciences, as well as the areas of nursing, criminology, and personnel management. The *fourth edition* of the *Publication Manual* contains new sections, including:

- Additional guidelines to reduce bias in language;
- Expanded instructions for presenting statistical information;
- Referencing that includes electronic media and legal materials;
- Updated information on preparing manuscripts with a word processor;
- General policies and ethics of scientific publication;
- and more!

The *Publication Manual* gives you all the information you need about the process of publication from organizing, writing, keying, and submitting your manuscript to seeing the accepted manuscript through production and publication. Plus, this *fourth edition* raises your awareness of publishing ethics issues and accurate, sensitive word choices in describing persons. Order your copy of this essential resource today. 1994. 368 pages.

Contents: Quality of Contents; Characteristics of Authorship and Articles; Parts of a Manuscript; Quality of Presentation; Writing Style; Grammar; Guidelines to Reduce Bias in Language; Punctuation; Spelling; Capitalization; Italics; Abbreviations; Headings and Series; Quotations; Numbers; Metrication; Statistical and Mathematical Copy; Tables; Figures; Footnotes and Notes; Reference Citations in Text; Reference List; References to Legal Materials; Preparing the Word-Processing File for Editing and Typesetting; Instructions for Typing the Parts of a Manuscript; Transmitting the Accepted Manuscript for Production; Reviewing the Copy-Edited Manuscript; Proofreading; After the Article Is Published; Policies Governing the Journals; Editorial Management of Manuscripts; The APA Journals; Journal-Related Periodicals.

Jeopardy *in the* Courtroom

A Scientific Analysis of Children's Testimony

Stephen J. Ceci and Maggie Bruck

The credibility of children's testimony is a highly debated topic in America's courtrooms, universities, and living rooms. Does the ingenuousness of children assure that their testimony will always be truthful? Or are children easily misled by overzealous investigators and therapists into making untrue allegations? Stephen J. Ceci and Maggie Bruck contend that the truth falls somewhere between these extremes. Using case studies, ranging from the Salem Witch Hunt to the Little Rascals Day Care Case, to illustrate their argument, *Jeopardy in the Courtroom* draws from the vast corpus of scientific research to clarify what is most relevant for evaluating and understanding children's statements made in the legal arena. Bringing good science and good sense to a topic that is as timely as it is controversial, Ceci and Bruck

- ♦ provide prevalence and incidence statistics on child abuse,
- ♦ provide theoretical overviews of memory and suggestibility,
- ♦ trace the history of research on suggestibility from the turn of the century to the present,
- ♦ explore the dynamics of structured and therapeutic interviews with children,
- ♦ examine the topic of recovery of repressed memories of early childhood abuse,
- ♦ evaluate the research regarding age differences in the reliability of children's reports, and

- ♦ offer tips for conducting interviews with children in a sensitive and professional manner.

Written in lively, accessible language by acknowledged experts in the field, this book will be an invaluable guide for expert witnesses and all those who work with child witnesses, including therapists, social workers, law enforcement personnel, and lawyers.

Available November 1995
312 pages. Hardcover
APA Members/Affiliates: \$24.95
List: \$29.95; Item # 431-8350
ISBN: 1-55798-282-1

TABLE OF CONTENTS

Children as Witnesses:	Stereotype Induction:
Seven Case Descriptions	A Suggestive Interviewing Technique
Assessing the Scope and Characteristics of Child Sexual Abuse	Other Suggestive Interviewing Techniques
Defining Memory and Suggestibility	The Pros and (Mostly) Cons of Using Anatomically Detailed Dolls
Legal and Behavioral Approaches to Children's Suggestibility: 1900-1985	The Evidence for Delayed Recall of Childhood Sexual Abuse
The Recent Past: Changes in Legal and Behavioral Approaches	The Role of Suggestion in Delayed Recall of Child Sexual Abuse
The Architecture of Interviews With Children	Age Differences in the Reliability of Reports
The Role of Interviewer Bias	Mechanisms That May Account For Age Differences in Suggestibility
The Effects of Repeated Questioning	Ethical and Professional Issues
